Travel and expense policy
Applies to all employees from 1 April 2026.

Booking
Book all flights, trains and hotels through the travel desk portal. Bookings made elsewhere are reimbursed only if they were cheaper than the portal price on the same day.

Limits per night for hotels
Mumbai, Delhi, Bengaluru: up to INR 9,000
Other Indian cities: up to INR 6,000
International: the city limit listed in the travel desk portal

Flights
Economy class for all flights under 6 hours. Premium economy for longer flights. Business class needs approval from a director.

Meals
Up to INR 1,500 per day in India without receipts. Above that, receipts are required. Alcohol is not reimbursed.

Equipment and IT purchases
IT equipment (laptops, monitors, headsets, software) is never bought on expenses. Order it through the service portal so IT can register, secure and support it. Expensed IT purchases are rejected.

Claims
Submit claims in the expense tool within 30 days of the trip. The expense tool uses single sign-on; if it shows an SSO error, see the IT status page. Claims are paid with the next salary run after approval by your manager.
